

## Technical Specification Datasheet

**Product Name: Copper Foil Tape with Conductive Adhesive**

**Properties:**

- Material - Pure 99.99% Copper
- Width - 6mm
- Length of Roll -15 meter
- Thickness - 3mil or 0.07mm

**Features:**

- Extremely Flexible
- Easily Solderable and resists oxidation and discoloration
- It is highly electrically conductive
- The adhesive is very handy for sensing applications
- Protective paper backing over the adhesive

**Uses:**

- Mainly used in an application like EMI shielding, working with EL, making capacitive touch pads, A solar cell, Ultra-thin wiring needs, etc.

Techinstro assures the above specification and dimensions of the product as per datasheet. We ensure the quality of the product with moisture proof packing. This sheet is also available on the website, where a researcher or purchaser can also download it merely by clicking on the pdf link. The terms and condition for the product purchase mentioned in the quotation. For safe product storage, tips and procedure provided with the material. For more queries, contact our technical support.
